

# STYLELINC<sup>®</sup> SPECTRUM

## DESCRIPTION

Lincoln Industries StyleLinc<sup>™</sup> Spectrum technology is a unique anodizing on aluminum. It provides maximum durability and a wide range of color options. Type II and Type III are available providing both cosmetic and protection applications.

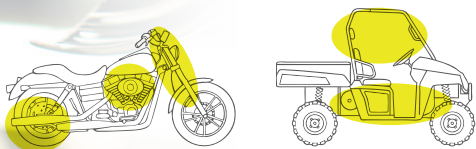

## INDUSTRIES

Aftermarket  
Agriculture  
Automotive  
Energy

- ▶ Industrial
- ▶ Motorcycle
- ▶ Powersports

## APPLICATION EXAMPLES

- ▶ Exhaust components
- ▶ Paint spray guns
- ▶ Natural gas equipment
- ▶ Various cosmetic applications

## PRODUCT BENEFITS

### Type II

- ▶ Corrosion resistance
- ▶ Improved wear resistance
- ▶ Options for UV and thermal stability
- ▶ Electrical resistivity
- ▶ Many color options

### Type III

- ▶ Hardness
- ▶ Improved corrosion and wear resistance
- ▶ Increased coating thickness
- ▶ Electrical resistivity
